

Codonics Virtua User's Manual Supplement

Technical Brief

Virtua User's Manual Supplement

Summary

Virtua® systems utilize different ink cartridges depending on the Recorder model they were shipped with. The latest Recorders use a single tri-color ink cartridge. These systems can be identified by the first two characters in the serial number of the Recorder, 84.

The previous Recorder model utilized an ink system that had a separate print head and individual ink cartridges for each color. These systems can be identified by the first two characters in the serial number of the Recorder, 83.

The instructions in the Virtua User's Manual (Part Number VIRTUA-MNLU) regarding ink loading, maintenance, and reordering are not appropriate for these either of these newer Recorder models.

Please see the appropriate Virtua Reference Guide (Part Number 900-567-00x for 83-series Recorders, or 900-729-00x for 84-series Recorders) for instructions regarding ink loading, maintenance, and reordering for these systems.

Technical Support

If problems occur during software installation, contact Codonics Technical Support between the hours of 8:30AM and 5:30PM EST (weekends and U.S. holidays excluded).
